INTERNATIONAL BACCALAUREATE PROGRAMS OF STUDY EARL WOOSTER HIGH SCHOOL

“The most powerful learning is that which meets current needs.
The strength of the learner profile as the backbone of an IB continuum may lie
in the fact that we all see it a little differently.”

- Julian Edwards, assistant elementary principle at Western Academy of Beijing, China

Individual student plans may vary. This should be used as a planning guide to help you and your IB student select a course of study and to prepare them for the IB diploma. “Extra Certificates” (additional IB courses that are not part of the IB diploma) may possibly be taken and must be approved by the IB Coordinator in the spring of the junior year. It is not a guarantee that an extra certificate will fit into your student’s schedule.
